

Name [REDACTED],

I know that calling Phone # [REDACTED] or visiting Address [REDACTED] would be a effective way to have a word with you in case you don't act. Don't try to hide from this. You've no idea what I'm capable of in [REDACTED] City [REDACTED]

I suggest you read this message carefully. Take a moment to chill, breathe, and analyze it thoroughly. We're talking about something serious here, and I don't play games. You don't know me however I know ALOT about you and right now, you are thinking how, correct?

Well, you've been treading on thin ice with your browsing habits, clicking through those girly videos and venturing into the darker corners of cyberspace. I actually placed a Malware on a porn website and you accessed it to watch(know what I mean?). When you were busy watching videos, your system started operating as a RDP(Remote Device) which allowed me complete accessibility to your system. I can peep at everything on your screen, flick on your cam and mic, and you wouldn't have a clue. Oh, and I have got access to all your emails, contacts, and social media accounts too.

Been keeping tabs on your pathetic life for a while now. It is simply your bad luck that I stumbled across your misdemeanor. I gave in more time than I probably should've exploring into your personal life. Extracted quite a bit of juicy info from your system. and I've seen it all. Yeah, Yeah, I've got footage of you doing filthy things in your house (nice setup, by the way). I then developed videos and screenshots where on one side of the screen, there's the videos you had been enjoying, and on the other half, its your vacant face. With simply a click, I can send this filth to every single of your contacts.

I feel your worry and confusion. Frankly, I am ready to wipe the slate clean, and let you continue with your life and forget you ever existed. I will give you two alternatives.

Option One is to turn a deaf ear my e-mail. Let us see what will happen if you select this path. Your video will get sent to your contacts. The video is straight fire, and I can't even fathom the humiliation you'll face when your colleagues, friends, and fam see it. But hey, that's life, ain't it? Don't be playing the victim here.

Second wise option is to pay me, and be confidential about it. We'll name this my "confidentiality fee". Lets discuss what will happen when you select this choice. Your secret will remain your secret. I will wipe everything clean once you come through with the payment. You'll make the payment by Bitcoin only. Pay attention, I'm telling you straight: 'We gotta make a deal'. I want you to know I'm coming at you with good intentions. I am a man of my words.

**Required Amount: USD 2000**

**BITCOIN ADDRESS IS:** [REDACTED] Bitcoin wallet address

Or, (Here is your Bitcoin QR code, you can scan it):

QRS Code

Let me tell ya, it's peanuts for your peace.

**And of course:** You got one day to sort this out and I will only accept Bitcoins (I've a unique pixel in this email, and right now I know that you have read this mail). My system will catch that Bitcoin payment and wipe out all the dirt I got on you. Don't even think about replying to this or negotiating, it's pointless. The email and wallet are custom-made for you, untraceable. If I catch that you've shared or discussed this mail with someone else, your garbage will instantly start getting sent to your contacts. And don't even think about turning off your

phone or resetting it to factory settings. It's pointless. I don't make mistakes, **Name**

Nice locality btw

Honestly, those online tips about covering your camera aren't as useless as they seem. I am waiting for my payment..
